

Support Sustainability!

Did you know that UUCT:

- Is certified as a Green Sanctuary?
- Helped form the Big Bend Climate Action Team in 2005 opposing a local coal plant and promoting an expanded clean energy plan, later adopted?
- Installed a 20kw solar photovoltaic system in 2007?
- Contracted in 2018 to receive 100% solar energy from the City's Solar Farm?
- Enhanced our urban forest by planting over 20 species of new trees in the Florida Hammock?
- Boasts members who are leaders in Sustainable Tallahassee, Rethink Energy, Citizens' Climate Lobby, and Big Bend Environmental Forum?

So how can *you* help make our community an even better place to live by 2035?

- Avoid disposable plastic; shop with cloth bags.
- Frugally manage your energy at home & work.
- Install solar panels on your home.
- Follow a plant-based flexitarian diet.
- Leave your car in the garage more often.
- Drive a hybrid, plug-in hybrid or all-electric vehicle.
- Support climate change legislation.

Your pledge will help sustain all of UUCT's missions:

Religious, musical, pastoral and charitable as well as environmental.
